Who is Epatec?

# epatec

Epatec is a company specialized in professional computing solutions, providing hardware and software designed for demanding professional environments.

Since 2004, the company has been delivering reliable and robust systems such as Industrial PCs, Panel PCs, and Thin Clients, tailored to meet the specific requirements of each client and industry.

With a strong focus on performance, durability, and customization, Epatec offers complete solutions that integrate both hardware and software, ensuring efficiency and long-term reliability in industrial applications.

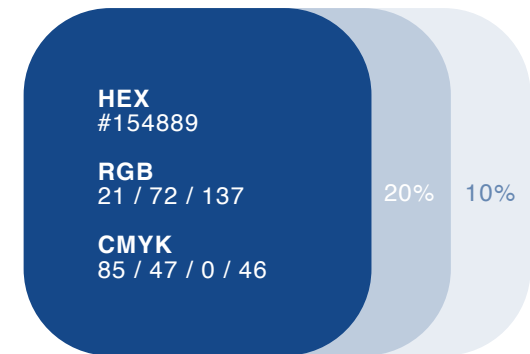

# Logotype

## Colour Palette

RAL 5005, also known as “Signal Blue,” is a deep, saturated shade of blue that creates a balance between intensity and calmness. It has a pronounced richness that gives it a strong and commanding presence without appearing harsh. The color leans slightly toward a cooler, almost industrial character, giving it a sense of precision and clarity often associated with technology, transportation, and technical environments.

Despite its solidity, RAL 5005 still retains enough vibrancy to appear dynamic and visually appealing, especially when applied to large surfaces or contrasted with lighter tones. Its depth conveys reliability and stability, while the vivid blue undertone ensures that it remains recognizable and expressive.

epatec

# Logotype

## Clear Space Requirements

To ensure visibility and legibility, a minimum clear space must always surround the logotype.

# Logotype

## Variations

Approved color variations allow the Epatec identity to adapt to different backgrounds and communication formats while maintaining visual consistency.

### Preferred Usage

The blue logotype on light backgrounds is the preferred version for most corporate applications.

### Secondary Usage

Negative versions may be used on dark backgrounds or photographic applications when readability requires it.

The word "epatec" is written in a bold, lowercase, sans-serif font in a medium blue color against a plain white background.

# Logotype

## Incorrect use

Incorrect use of the logotype may weaken brand recognition and compromise the consistency of the Epatec visual identity.

The logotype must always be reproduced using the approved versions, colors, proportions and spacing defined in this manual.

# Typefaces

## Primary Typeface

Source Sans Pro is the official corporate typeface of Epatec.

Its clean and modern appearance reinforces the company's technological and professional identity across both digital and printed communication.

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
0123456789!"·\$%&/()=?¿¡

Source Sans Pro Regular

**ABCDEFGHIJKLMNOPQRSTUVWXYZ**  
**abcdefghijklmnopqrstuvwxyz**  
**0123456789!"·\$%&/()=?¿¡**

Source Sans Pro Semibold

*ABCDEFGHIJKLMNOPQRSTUVWXYZ*  
*abcdefghijklmnopqrstuvwxyz*  
*0123456789!"·\$%&/()=?¿¡*

Source Sans Pro Regular Cursiva

***ABCDEFGHIJKLMNOPQRSTUVWXYZ***  
***abcdefghijklmnopqrstuvwxyz***  
***0123456789!"·\$%&/()=?¿¡***

Source Sans Pro Semibold Cursiva

# Divisions

## Product Categories

A product category identifies a technological area in which Epatec operates.

Each category must maintain the same visual structure and alignment rules as the core brand identity.

**epatec**  
Industrial PC

**epatec**  
Mini PC

**epatec**  
Panel PC

**epatec**  
Kitchen PC

**epatec**  
Software

# Email Signature

The corporate email signature ensures a consistent and professional brand presence across all digital communication.

# Datasheet

Datasheets maintain a consistent visual structure while presenting technical specifications and product information across the Epatec portfolio.

## IPC G3060S-C6

Intel® Core™ i7

Dual Gigabit LAN

NVMe + SATA Storage

4 Display Support

Industrial Temp  
-10°C ~ 50°C

6 COM ports

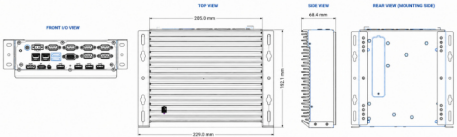

Fanless Design

## IPC G3060S-C6

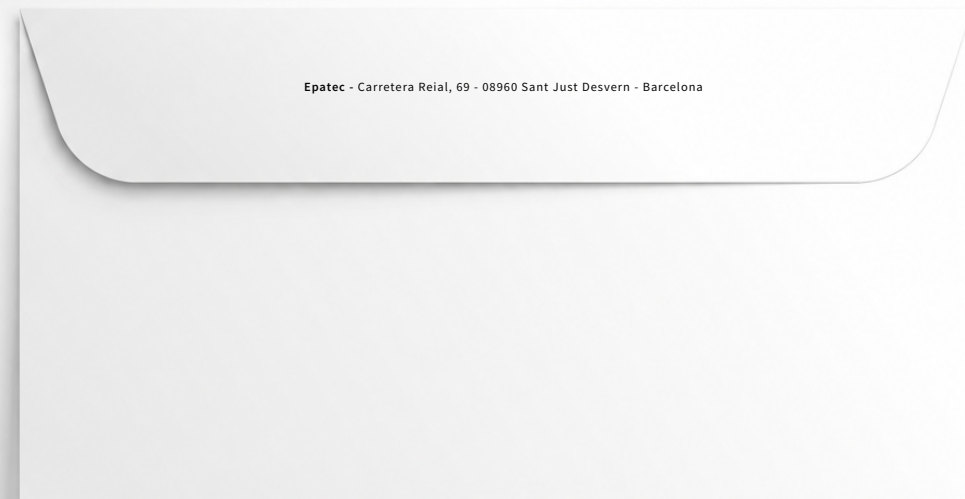

Chassis	Structure/Material	Fanless design, aluminum + metal
	Color	Black
	Dimension	205*192*68.4MM
	Net Weight	2.2KG
CPU Board	Installation	Desktop/Wall-mount/DIN rail (35mm)
	CPU	Intel® i7-1195G7/2.90GHz, 4 cores 8-thread processor, TDP 28W
	Graphics	Intel® Iris Xe Graphics eligible
Front Panel Port	Memory	2*SODIMM DDR4 3200MHz, up to 64GB
	Button	1*Power button (PWR), 1* RST
	LED	1*Power LED, 1*HDD LED
	USB	2*USB2.0
Rear Panel Port	Audio	1*Line out, 1*MIC
	Phoenix	1*4P (1*power signal / 1*power LED signal)
	CMOS	1* clear CMOS button
	Display	2*HDMI 2.0(4096*2304@60Hz), 1*DP1.4(4096*2304@60Hz), 1*VGA, support 4" display
	COM	6*DB9 RS232/485 DB9; COM1-2 support CAN(need install mini PCIe CAN module)
Storage	LAN	2*Intel I210AT Gigabit LAN port
	USB	4*USB3.0
	DIP Switch	6 groups 6-digit dip switch, for RS232/RS485 selection (dip switch on bottom of chassis)
	Power Port	1*DC adapter port, 1*2P phoenix connector (Pi-5.08mm), support DC 9-36V voltage input
Expansion	SATA	1*2.5" SATA port
	MSATA	1*MSATA
Power Supply	M.2	1*M.2/SSD, support Key-M, 2280, NVMe PCIe x4 SSD
	MINIPCIe	1*MINIPCIe, support WIFI / 4G
	Power Type	External power adapter
Environment	Voltage Input	DC 9-36V
	Consumption	AC TO DC ~ 60W
	Operating Temp.	-10°C ~ 50°C
	Storage Temp.	-20°C ~ 70°C
	Relative Humidity	5%~95% relative humidity, non-condensing
Vibration	0.5g rms/5-500Hz/random/operating

# Business envelopes

Corporate envelopes maintain a clean and professional appearance while reinforcing brand recognition across printed communication materials.

# Business card

The business card reflects the Epatec visual identity through a clean and professional layout designed for both printed and corporate communication.

# Flyer

Flyers are designed to communicate products and services clearly while maintaining visual consistency with the Epatec brand identity.

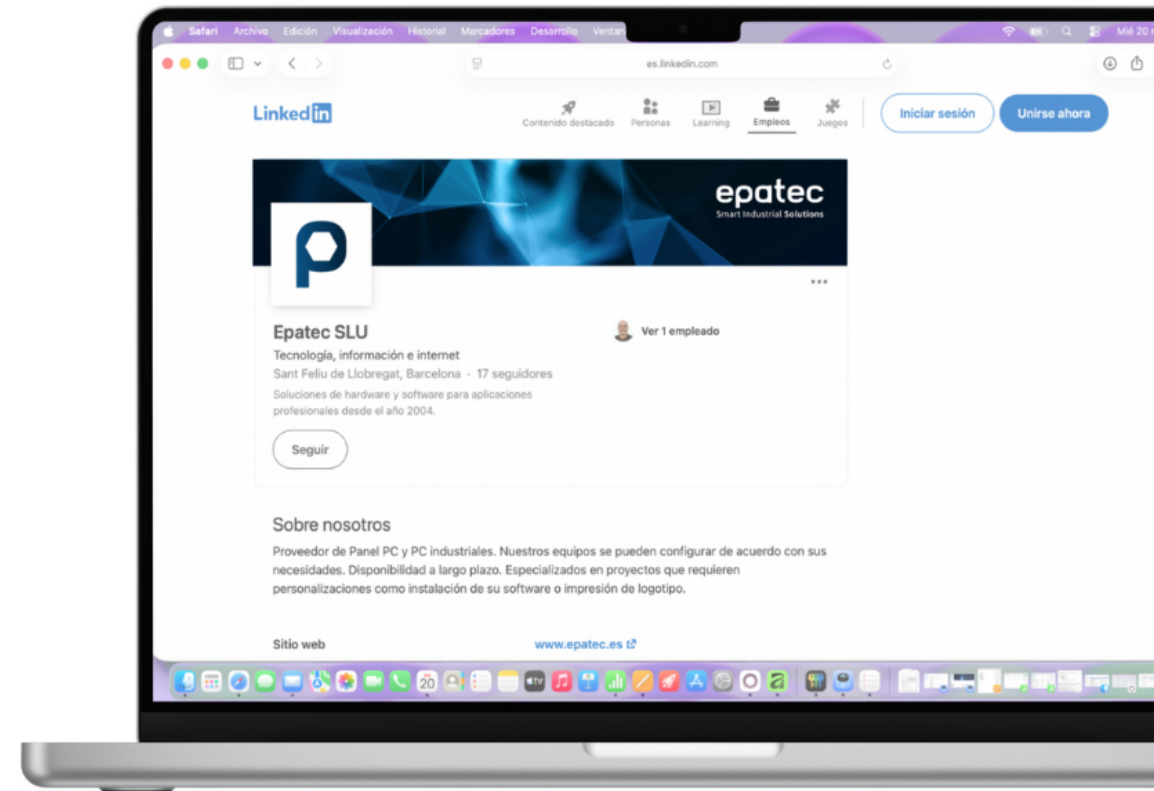

# Corporate clothing

Corporate clothing applications reinforce brand visibility while maintaining a clean and professional visual identity.

# Social media

The Epatec visual identity adapts to social media platforms through consistent use of typography, colors and responsive brand elements.
