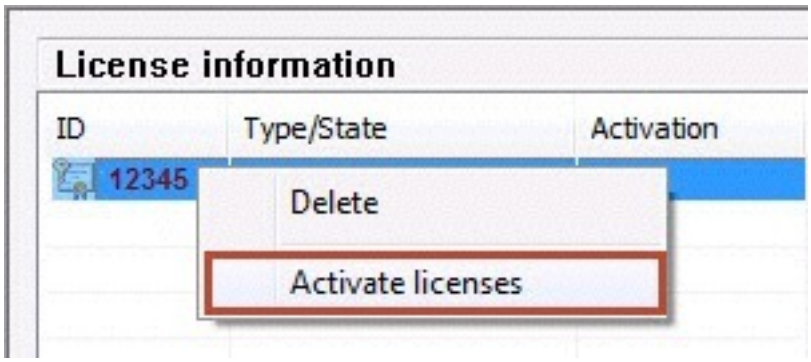
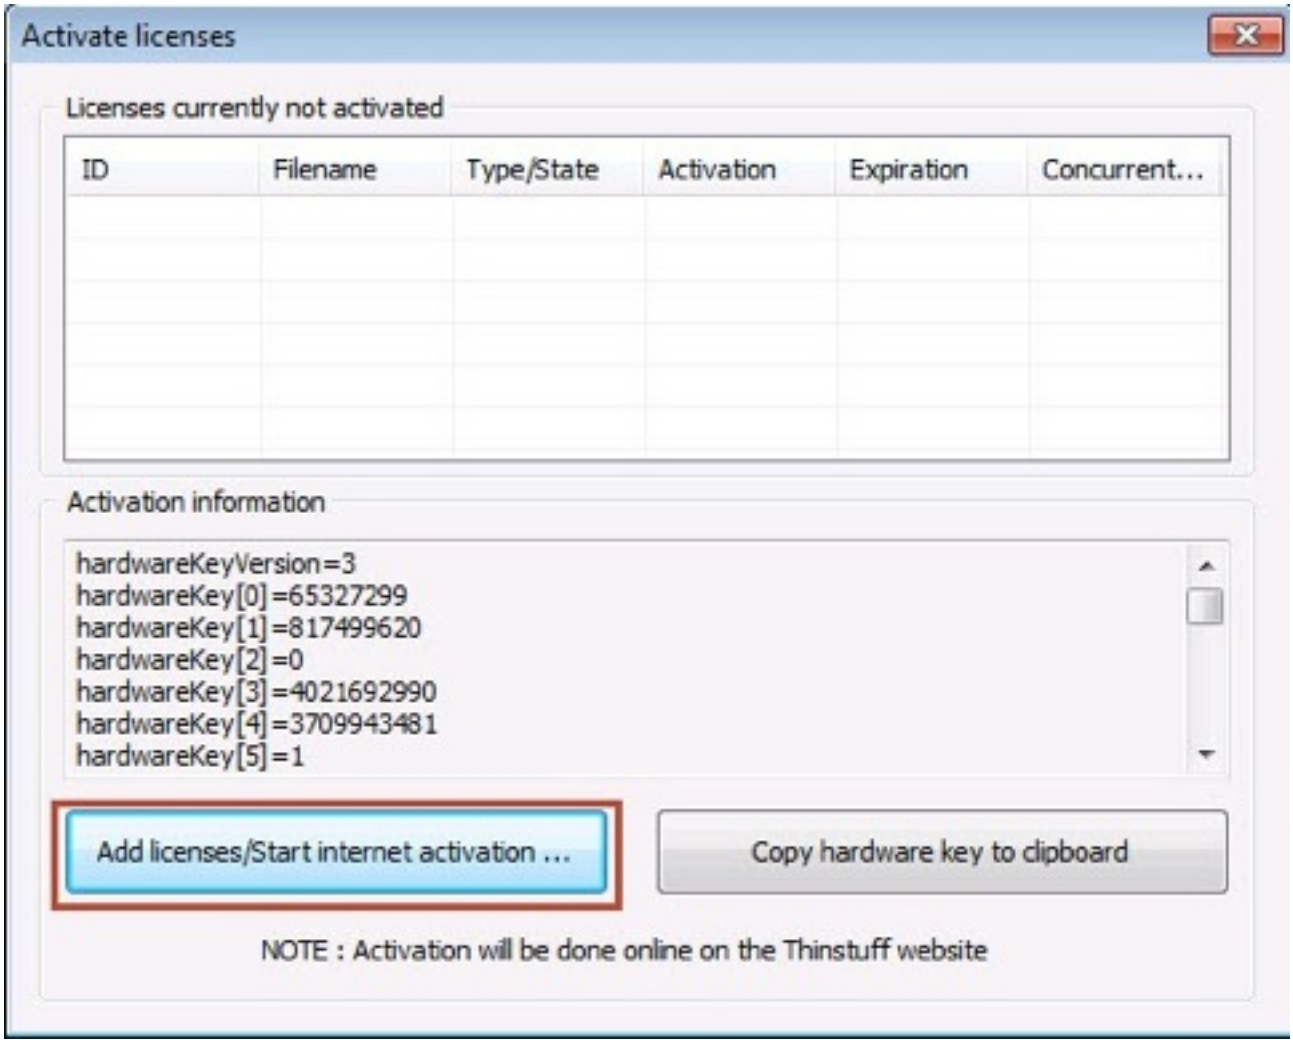
INSTRUCCIONES ACTIVACIÓN LICENCIA

Run the activation process:

Start Thinstuff XP/VS Terminal Server Administrator and right-click in the License information window:



Select "Activate licenses" and the following dialogue will appear:



You web-browser will open - login with your Thinstuff account (license is assigned with)

INSTRUCCIONES ACTIVACIÓN LICENCIA

Now you have to select the license you want to activate.
Either you can use the radio button or you can enter the license code
(Please note that you have to enter the whole code 12345-XXXXXXXXXXXXXXX)

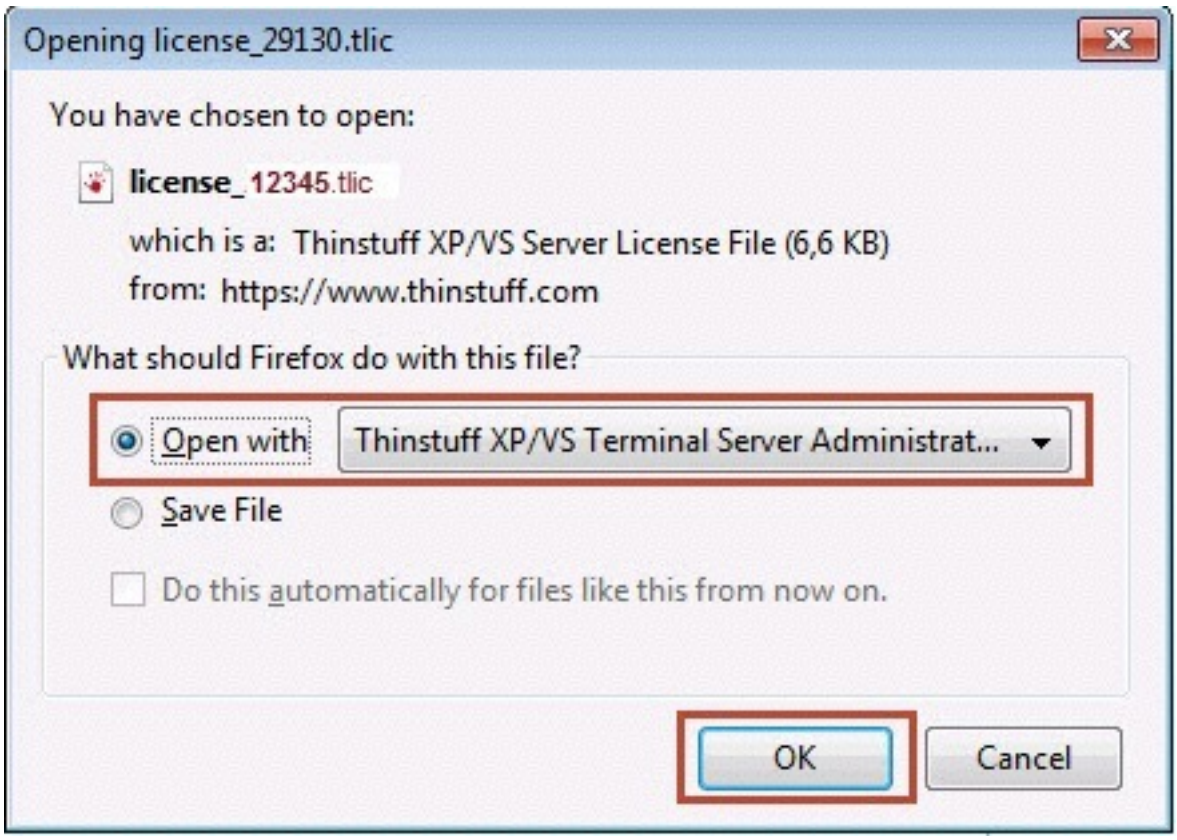
And click "Activate/Download license"

Now the hardware information of your server will be copied to our webserver,
which creates the new license file.
As soon as this process is finished the license will be downloaded automatically
and the following window will open.

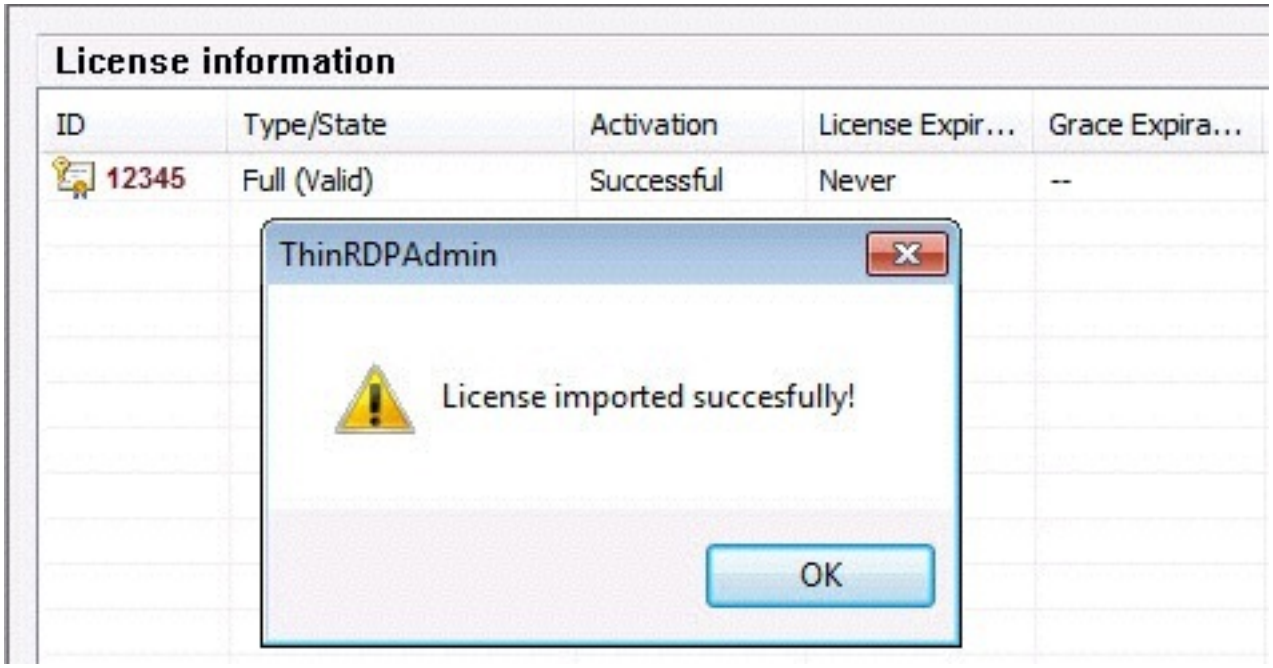
Please ensure that pop-ups from "thinstuff.com" are allowed, otherwise the automatical
download of the license file will be refused.

Please choose "Open with: Thinstuff XP/VS ...." and confirm with "OK"

INSTRUCCIONES ACTIVACIÓN LICENCIA



Now the license will be imported automatically into XPVS Server Administator:



And the license will be shown in Type/State: "Full (Valid)”
